

**Your Essential Supplements, Inc.**  
*Scientifically-Advanced Nutritional Supplements*

## **YES Supplements are Unique & Highly Specialized**

Your Essential Supplements, Inc. was created to address a common dietary problem that has developed over decades due to poor dietary advice and the ubiquity of processed foods in our diet. These issues cause a host of health problems, including fatigue, difficulty focusing, poor circulation, and more. We are devoted to applying science-based information to help our clients achieve real-life results with products that work in harmony with the body.

YES products are developed using a scientific approach that sets us apart from other supplement companies. Our product ingredients are unadulterated, organically certified (grown and processed without chemicals), and non-GMO. Our products are bottled in GMP-certified facilities. No harmful additives are ever used. Each product is uniquely formulated to assure maximum utilization by the body.

**We do not base our formulas on popular opinion  
and will not sacrifice quality for cost.**

## **YES Ultimate EFAs®**

Your body can't make Parent Essential Oils; they must come from food. Unfortunately, most food processing and "fresh" food preparation destroy EFAs, and the results can be disastrous to your health. YES Ultimate EFAs are the ideal way to get these vital oils back into your diet, as nature intended. YES Ultimate EFAs contain Parent Omega-6 and Parent Omega-3 in a unique blend. This formulation does not contain any derivative-based fish oils. Our Ultimate EFA formula is organically produced, cold-pressed with no chemicals, and they are so powerful that you'll get much better results than you might from other EFA supplements!

YES Ultimate EFAs provide cellular support that can increase oxygen transfer to improve circulation, strengthen the immune system, and boost many biological systems.

**Increased Cellular Oxygen**

**Greater Energy & Vitality | Fewer Carbohydrate Cravings**

**Increased Circulation**

**Faster Recovery After Workout**

**Better Mental Clarity & Focus**

**Healthier Immune System**

**More Restful Sleep**

**Better Overall Health**

*Results may take 3-6 months of consistent use. Many clients notice results much sooner.*

## **YES Gentle Herbal Cleanse**

YES Herbal is based on a blend used for over 100 years, unrivaled in its gentleness and effectiveness. The addition of Cat's Claw Bark to the original formula helps to improve circulation and aids in digestion and elimination. Reducing harmful toxins is important to combat the negative effects of food additives, pesticides, steroid residues, preservatives, and hormone residues. YES Herbal also helps minimize harmful yeast, microbes, bacteria, and fungi in the bloodstream.

**Fewer allergy symptoms,  
Better digestion & elimination  
Healthier skin  
Stronger Immune system  
Better circulation  
Calming effect, and more...**

## **YES Ultimate Minerals**

YES Minerals are an effective way to replenish some of the vital nutrients we require on a daily basis. Minerals are coenzymes, working with the vitamins in food to make many of our biochemical reactions work up to a million times more efficiently.

Minerals are essential; your body cannot make them. They must come from food or from a dietary supplement. Unfortunately, commercial farmers and food processors have ruined much of the mineral content in our food. There are 8 minerals that may be lacking in modern foods. YES Minerals are covalently bonded to amino acids for maximum use by the body and are vital for maintaining good health.

**YES Minerals work with the Ultimate EFAs and the vitamins in food to improve cellular function and maximize health and vitality.**
